Below to the abstract should not more than 6 keywords.

**Introduction**

State the purpose and summarize the rationale for the study or observation.

**Materials and Methods**

Materials and/or subjects utilized in the study as well as the procedures undertaken to complete the work. The methods should be described in sufficient detail such that they could be repeated by a competent researcher. The sources of all major instruments and reagents used (kits, drugs, etc) must be given with parentheses. Illustrations and/or tables may be helpful in describing complex equipment or elaborate procedures. The statistical tool used to analyze the data should be mentioned. All procedures involving authentication of plant materials, experimental animals or human subjects must accompany a statement on ethical approval from appropriate authentic society and ethics committee must be produce when ask by Editorial board.

**Results and Discussion**

The data should be presented in a coherent

sequence so that the report develops clearly and logically. The same data should not be presented in tabular and graphic forms. Please avoid unnecessary use of graphs and tables. Data should not be interpreted or discussed in results section. However, in some cases results and discussion could be combined as one section.

**Conclusion**

The principal conclusions drawn from the results and their important implications. Information presented under results and discussion should not be repeated. The conclusion should not be unnecessarily lengthy and verbose.

**Conflict of Interest**

Conflicts of interest have to be declared.

**Acknowledgements (if any)**

The source of any financial support, gifts, technical assistance and advice received for the work being published must be indicated in the Acknowledgments section.

**References**

Text citations should follow the Harvard system and thus put the last name of the first author and the year of publication within parentheses unless the author's name immediately precedes the citation {i.e. "recent work [Dalmarco, 2010]" (Orafidiya & Oladimeji, 2002) or "recently Goyal *et al.* (2011)"}]. References should be listed alphabetically by year. Issue number required only when each issue of a volume begins with page 1.

**Standard journal article:**

Li Z and Yang D (2007): Structure-effect relationship of conjugated linoleic acid and its molecular pharmacology research progress. *Foreign Med Sci* 34: 26-30.

Hsieh SC, Fang SH, Rao YK, Tzeng YM (2008): Inhibition of pro-inflammatory mediators and tumor cell proliferation by *Anisomeles indica* extracts. *J Ethanopharmacol*, 118 (1):65-70.

List the first six authors followed by *et al.*

**Book and other monographs**

**Tables**

Tables should be numbered with Roman numerals according to their sequence in the text, and have a short self-explanatory heading. Use SI units. Tables should include vertical rules, but horizontal rules should separate column headings from the content. Authors should keep in mind the page layout of the journal when designing tables. Tables that fit onto one printed page are preferred. Detailed explanations of symbols, units, and abbreviations should be given below the table.

**Figures**

Figures should be numbered consecutively with Arabic numerals (i.e. Figure 1, 2, 3 etc.). Provide a brief title with each figure. All figures should be cited in the text. -File formats accepted are Microsoft Word (figures must be a single page), PowerPoint (figures must be a single page), PNG, JPEG, TIFF, BMP, CDX (ChemDraw) or TGF (ISIS/Draw).

**Appendixes (if necessary) Abbreviations used (if necessary) Review Articles**

Should be about 15-30 pages long, contain up-to-date information, comprehensively cover relevant literature and preferably be written by scientists who have in-depth knowledge on the topic. All format requirements are same as those applicable to full papers.

**Short Communication**

New, interesting and rare cases can be reported. They should be unique, describing a great diagnostic or therapeutic challenge and providing a learning point for the readers. Cases with clinical significance or implications will be given priority. These communications could be of up to 1000 words (excluding Abstract and references) and should have the following headings: Abstract (unstructured), Key-words, Introduction, Case report, Discussion, Reference, Tables and Legends in that order.

The manuscript could be of up to 1000 words (excluding references and abstract) and could be supported with up to 10 references. Case Reports could be authored by up to four authors

**Copyright**

Submission is a representation that the manuscript has not been published previously and is not under consideration for publication elsewhere. Authors would be required to sign a form (to be supplied by the Editor) transferring copyright before the manuscript can be published. Download Copyright Form [www.ijpo.in](http://www.ijpo.in) and **submit its scan copy while ‘Submitting the Article’.**

**Ethical Matter**

Authors publishing results from *in vivo* experiments involving animals or humans should state whether due permission for conduction of these experiments was obtained, from the relevant ethics committees, in the Materials and Methods section. In addition,

authors wishing to publish research work involving human studies should also send a notary verified letter of approval from the Ethics Committee or the Institutional Review Board.

**Manuscript Submission**

Complete file should be submitted on line at <http://ijpo.in/> or via e-mail to: [journalpharma02@gmail.com](mailto:journalpharma02@gmail.com).

**Processing Fees for Publication**

Manuscripts submitted to **IJPO** are assumed to be submitted under the Open Access publishing model. There is no charge for the processing and publication of Review and Research articles for year 2019. Published papers appear electronically and are freely available from our website <http://ijpo.in/>.
